ABOUT RILAKKUMA

.....

Rilakkuma

This bear costume, known as Rilakkuma came out of nowhere and visited Kaoru's house one day. Even now without plans, this costume hangs out at her place and disturbs her by not doing anything everyday but gives her some life advise occasionally. Rilakkuma's favorite food is special sweets from local rice dumpling store and Rilakkuma's weakness is summer season.

Korilakkuma

Korilakkuma is a white bear cub, but nobody knows where it came from. Apparently, Korilakkuma was not acquaintances with Rilakkuma, but since there is a red button on its chest, it does not seem like a real bear. Korilakkuma was named by Kiiroitori. Korilakkuma loves to play tricks and is a mischievous cub with lots of energy.

Kiiroitori

Kaoru was keeping the yellow bird as a pet before Rilakkuma and Korilakkuma came. Kiiroitori used to stay in a birdcage but can now leave it freely. Every day Kiiroitori scolds Rilakkuma for laying around and fights with playful Korilakkuma for being too mischievous.

Chairoikoguma

Chairoikoguma lives in the Honey Forest and is friends with Korilakkuma. The chest hair is bushy, and when the mouth opens, there are fangs. There are bear prints on the soles of each foot. The body smells like sweet honey. There is honey on the butt.

すみっこぐらし Sumikkogurashi™

ABOUT SUMIKKOGURASHI

Shirokuma
A white bear who'd runaway from the north as he's sensitive to the cold and shy of strangers. Shirokuma feels relaxed when he's drinking hot tea in the corner.

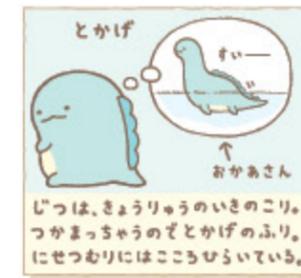

Penguin?
Doesn't have confidence about who he really is. Penguin? might have a plate on his head in the past...

Tonkatsu
The leftovers of pork cutlet on the plate, which is with only 1% meat and 99% fat. He's leftover because he's too fat. His pink mouth is the only meat part of his body.

Neko
A very shy cat. He's scratching his nails on the back wall.

Tokage
Tokage (means lizard) is the last dinosaur who survived from ancient times but is pretending to be a lizard not to be caught. He opens his heart only to Nisetsumuri.

Tapioca
Tapioca are the leftovers in the cup once all of the milk tea has been finished.

Zassou
Zassou is really positive and dreams that he'll be decorated as a bouquet someday at his desired florist.

Furoshiki
Shirokuma's bag who is always used for saving a spot in the corner.

Nisetsumuri
A slug with shell on its back, not a snail (Katatsumuri).

Hokori
Means dust.

Monchhichi[®]
SINCE 1974

ABOUT MONCHHICHI

.....

Monchhichi was created by Japanese doll company Sekiguchi. The first dolls were twins, a boy and a girl, and were an immediate hit.

“Mon petit” means “my small cute thing” in French.

+

“Mon” from the English word “monkey”

+

“Chu-Chu” is like the sound of a baby sucking on a pacifier in Japanese.
